- Joe Skurka
- Bob Smith
- Gary Wano
- Scott Westbrook

Mission Statement

We are a committee of industry stakeholders working together to discuss estimating practice and procedure issues, build broad understanding about them, find common ground and communicate findings and possible solutions to the industry at large. We shall focus our energy and time on issues that we believe can have the greatest positive impact on the stakeholders. We shall identify ways to reduce friction among stakeholders at the field level and look for solutions that will mutually benefit them.

Mission Statement, Part 1

- We are a committee of industry stakeholders working together to discuss estimating practice and procedure issues, build broad understanding about them, find common ground and communicate findings and possible solutions to the industry at large.

Mission Statement, Part 2

- We shall focus our energy and time on issues that we believe can have the greatest positive impact on the stakeholders.

Mission Statement, Part 3

- We shall identify ways to reduce friction among stakeholders at the field level and look for solutions that will mutually benefit them.

2007 Committee Issues

- Working with information providers to figure out how and where non-included operations can be prompted in their electronic estimating systems
- Defining the necessary steps and processes for a repair panel as opposed to a new, undamaged panel
