Education and Training

A shared vision....

...that every person in the collision industry, current and future, has the necessary knowledge and skills relevant to their position to achieve a complete and safe repair.

-Inter-Industry Conference on
Auto Collision Repair
(I-CAR)

Education and Training

2011 & 2012 topics

- Bilingual training in: Spanish, Asian , and Persian languages
- Disseminating information from training and testing organizations; ASE, ASA, AMi, I-CAR, SCRS and others
- Panel discussions on education and training with members from the six different inter-industry segments; collision repairers, insurance companies, data processors, education, OEM, and equipment and material manufacturers and distributors

Education and Training

2011 & 2012 topics

- Coaching and peer-to-peer relationships within an organization and across inter-industry segments
- Re-introducing mentoring and internships for entry level technicians
- National coalition for adopting local schools with collision training programs; one industry voice to support secondary and post-secondary education - the goal is to have better local market connectivity between schools and employers and donors
- Working with our future
