Information Technology Committee 2003 Accomplishments

■ Created Mission Statement

The mission of the Information Technology Committee is to provide a forum to raise awareness, educate, exchange information, provide a conduit to the Collision Industry Electronic Commerce Association (CIECA), and explore solutions to business issues through the use of information technology within the Collision Industry.

Information Technology Committee 2003 Accomplishments

■ Created Vision Statement

The Information Technology Committee will serve as a platform for providing greater awareness and education on how the industry can utilize current and future IT solutions to facilitate better and more cost-effective communication among all industry trading partners.

Information Technology Committee 2003 Accomplishments

■ Made Presentations at Each CIC Meeting This Year

- ◆ *CIECA Update on Connectivity to Shop on all Shop Systems (April 2003)*
- ◆ *Increase in Third-Party Administrators/Claims Communication Providers (July 2003)*
- ◆ *CIECA Update on CSI Requirements (October 2003)*
- ◆ *Estimate Quality Assurance (December 2003)*

Information Technology Committee 2003 Accomplishments

- Held 10 teleconferences throughout the year
 - ◆ *A big THANK YOU to CIECA for providing teleconference capabilities*
- Worked with Jordan to ensure all IT Committee minutes, presentations and information were posted to the CIC Webpage in a timely manner
- Archived old E-commerce Committee presentations on the IT Webpage

Information Technology Committee 2003 Accomplishments

- **Increased visibility to IT Committee's information by adding a CIC IT Committee link on CIECA's website**
