

# Write it Right Committee

Steve Vettel & Toby Chess  
Co-Chairmen

The WIR Committee is looking at the following issues:

- We are working with the California state regulatory state agency (BAR) to offer an alternative to the system of estimating that is currently being used.
- We are working with the information providers on the timeliness of the data that is sent to the shop.

- We are working with the OEM parts manufacturers on the timeliness & accuracy of the parts data.
- We are looking at using the term “Damage Assessment” for the preliminary inspection of a vehicle.
- We are looking at an “Authorization to Disassemble” to use for the tear down process that would allow for a more complete and comprehensive estimate of the vehicle.
