

The Year in Review

Presentation by the
Parts & Airbag Committee
Palm Springs, CA
January, 2004

Topics for discussion

In January 2003, the body of CIC identified the following as topics for discussion during the year:

- Non-OE parts certification
- Enhanced communication
- Branding of non-OEM parts
- Salvage airbags and covers
- Vendor CSI on all parts segments

Phoenix, AZ - April 2003

Certified Salvage Airbags

- Discuss the use of “never deployed” airbags
- Examine industry pros & cons
- Identify test methodologies to be considered for certification
- Define risk management vs risk avoidance
- Identify ongoing legislative initiatives
 - Theft
 - Donor Vehicle Tracking

Ft Lauderdale – July 2003

Aftermarket Part Quality

- Should we look into conducting our own research regarding part certification and approval programs?
- Should we develop best practices for distributors, insurers and repairers regarding use of aftermarket parts?
- How can we develop an educational process that demystifies aftermarket part manufacturing processes?

Boston – October 2003

No presentation given, deferred until
NACE 2003

Orlando – December 2003

CIC Quality Process Audit

- Conduct a CIC audit of non-OEM part certifications process and validation systems
- A stringent set of audit criteria and testing was developed to be presented to the validators of aftermarket parts
- Letter to be sent by CIC on behalf of the committee January 04
