Vehicle Repairability Committee

■ Mission Statement

The mission of the CIC “Vehicle Repairability Committee” is to inform the Collision Industry on the factors that are driving the “Total Loss Crisis”.

- ◆ To communicate to Vehicle Manufacturers the importance of “Vehicle Repairability” in the design and manufacture of new vehicles.
- ◆ To encourage OEM’s and their parts vendors to disseminate specific repair procedures prior to vehicle production and sale.

Presentations at Future CIC Meetings

- Define the factors that are driving the increase in totals
 - ◆ Dropped thresholds
 - ◆ Salvage values
 - ◆ Etc.
- Communication issues between repairers and insurance companies
 - ◆ Information needs of both entities
- OEMs and insurance companies explaining what they do to impact design for repairability
- Presentation by Iron and Steel Institute on new AHSS and their repairability
- Panel discussion – Repairers Total Losses and repairability issues
