

CCC Secure Share

Enabling collision repairers to share data securely

Why are we making this investment?

Security

**Customer
Control**

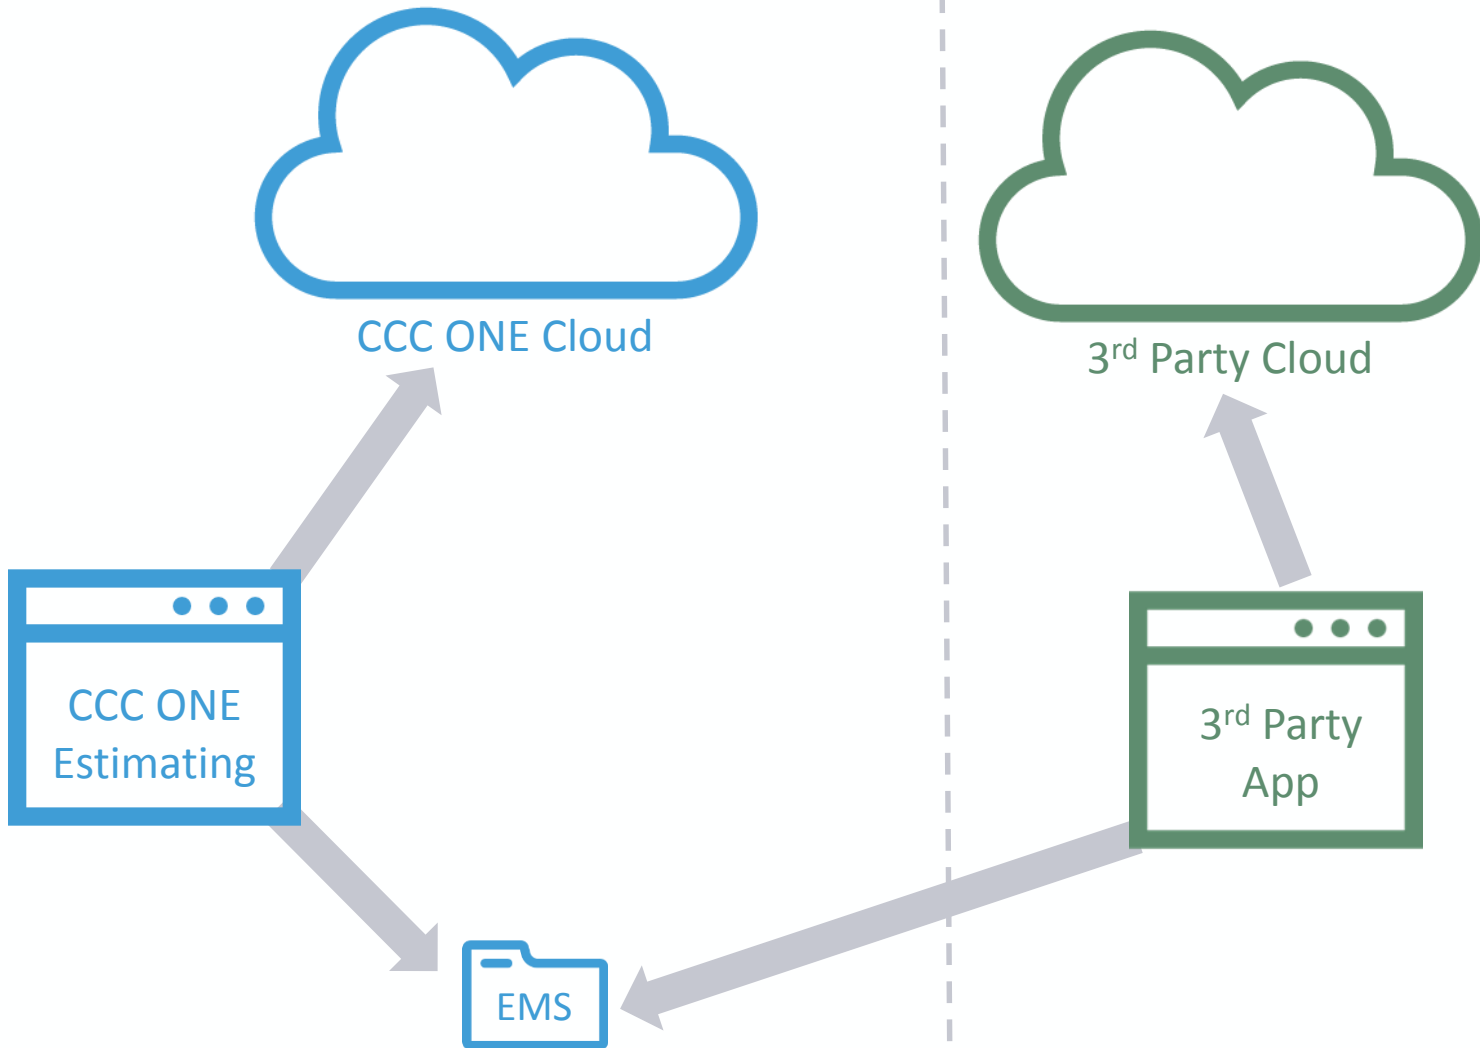

Innovation

Cloud

The old way: file-based data sharing

 **Security**

- **No encryption**
- **No control** of data shared
- **No control** of downstream usage
- **No logging**

The liability of unsecured data

KUTV CARFAX story shows importance of securing customer's data

By John Huetter on July 10, 2017

Ransomware attacks leave businesses and insurers exposed

WannaCry has insurers evaluating damage and exposures. What lines of business will be responsible for coverage?
