# Kool Tools of **SEMA** 2019

---

PRESENTED BY:

TOBY CHESS

KYE YEUNG

A solid yellow horizontal bar spans the width of the slide at the bottom.

# Time Shaver Sanding Blocks

- 4 sheets of sand paper from 9" x 11"
- All metal stainless steel-will not rust
- Stack 4 sheets at once
- Use 2 ¾' sand paper
- Contoured to fit a hand
- 4 colors to fit different grit sand paper
- Spring lock device cuts end waste by nearly 40%

# Evercoat Optex with built in guide coat.

Optex Super Build 4:1 Primer highlights dents, low spots, scratches, and other surface imperfections while at the same time eliminating the need for messy carbon black powdered guide coats. This 4:1 primer sprays on pink and turns gray as it is sanded, revealing high spots while low spots and scratches remain pink.

# Reliable Automotive Equipment MEC600

The **MEC600** pneumatic milling cutter tool has been designed to open welding seams for easy removal of the outer panels. The adjustable guide of the cutter allows the **MEC600** to be easily adjusted to different angular positions of the metal sheets and no damages by preventing the cutter from slipping off the edge.

## Benefits:

- milling depth stepless adjustable
- variable angel positions enable a generally car type application
- milling depth steplessly adjustable
- innovative tungsten carbide special milling cutter
- high work process-secure
- no flying sparks

# Glassbot Quarter window removal system

Glassbot®  
QuarterMaster  
Anchor one end of  
cutting element to  
body of  
QuarterMaster,  
insert the other end  
of the cutting  
element into the  
through-bore in  
shaft. Attach Tip  
Extension to shaft...

# Dent Fix Nitrogen Generator

Upgrade most brands of Plastic Welder with the DF-EZG1 EZ Nitro Generator and "Ditch the Bottle", Never Run out of Nitrogen AGAIN! Dent Fix's revolutionary Dual Chamber Separating System transforms your compressed shop air into an endless supply of both regulated & high pressure nitrogen. PLUS you can also fill your customer's tires with beneficial nitrogen and/or safeguard the internals of your pneumatic tools by powering them with nitrogen from the EZ Nitro Generator!

# CSI Ceram-X

The first polish formula to make the claim of "One product does it all" or "No More compound" CSI Ceram-X is the fastest way to polish paint. We at CSI have worked hard to make this claim, from mill gauge measuring to digital gloss measurement reading. With CSI Ceram-X there is absolutely no need to ever use compound again. Using a one component system, a saving between 30 and 35 percent cost can be achieved.

# SATA Female Paint Suit

**LADIES PREMIUM**

EXPERTLY DESIGNED FOR PROFESSIONAL PERFORMANCE

**Dan-Am Pro Series**

**SATA**

REUSABLE PAINT SUIT

**Protective hood**

Full poly-cotton back for increased breathability

**Back elastic for better fit**

Two utility back pockets

**INNOVATIVE PATENTED**  
Drop seat for complete ease of movement  
Helps prevent ripping at crotch

**PERMANENT ANTISTATIC FIBER!**

Machine washable.

Made from 100% polyester calendared materials with antistatic built-in carbon fiber threads to dissipate electronic charges. Breathable full poly-cotton back.

Built-in padded knees for comfort and protection

**Heavy duty zipper with corded covering**

Hook and loop cuff closures enable you to wear your gloves under or over the sleeve to protect your skin.

Ergonomically shaped sleeves for easy movement

Easy to slip on with wide pant legs

Adjustable hook & loop leg closure.

Underarm two-way zippers opening for ventilation and easy access to pant pockets.

**WARNING** Use of this coverall conforms to 29 CFR 1910.132. Coveralls which are damaged, torn or have broken zippers, etc. should be discarded and replaced.

# Keco Tabs-Crease Killer

The KECO Crease Killer is the ultimate crease pulling machine. Creases that were previously only fixable with push tools can now quickly be pulled with glue and the power of two Robo lifters, adjustable crease plates, new longer pass-through adapters, and the 7 mm Dead Center Centipede tabs.

**Wide Pass-Through Adapters** - create twice the lifting power spread evenly across tabs

**Adjustable Precision Crease Pull Plates** - hold metal down while focusing lifting and reducing time spent on corrective blending and knockdown sessions

**Dead Center 7mm Centipede Crease Tabs** - targets smaller creases without sticking and over pulling the crown

# SCRS Blue Print Optimization Tool

The SCRS Blueprint Optimization Tool:

- Intelligent business analytics that provide only the missing operations for the estimate.
- Will eventually operate with all major estimating systems. Current version developed to interact with CCC estimates.
- Immediately identifies overlooked repair operations and dollar amounts
- Provides an organized way to add overlooked operations and items into the estimate
- Supports Individual and multiple shop profiling with customization for unique business needs

Benefits of the application include the ability to:

- Audit in-house estimates before repairs to minimize supplements
- Audit external insurance estimates to identify overlooked repair procedures
- Establish consistency and uniformity with multiple users as part of the repair planning process
- Promote self-training for new employees to write complete and accurate estimates

This leading-edge technology will help achieve higher levels of user efficiency and accuracy
