

**COLLISION INDUSTRY**  
CONFERENCE

# Future Disruptions Committee

PRESENTED BY:

CO-CHAIRS: JAKE RODENROTH, FRANK TERLEP

# Future Disruptions Committee

**Mission:** Identify, share and drive discussions regarding future trends, technologies, disruptions, business models, and concepts that can and will disrupt all industry segments within 5-10 years. By identifying and sharing this information this committee hopes to help all segments prepare for and find common ground to deliver solutions that ensure the consumer's experience and safety meets or exceeds their expectations.

## Committee Members:

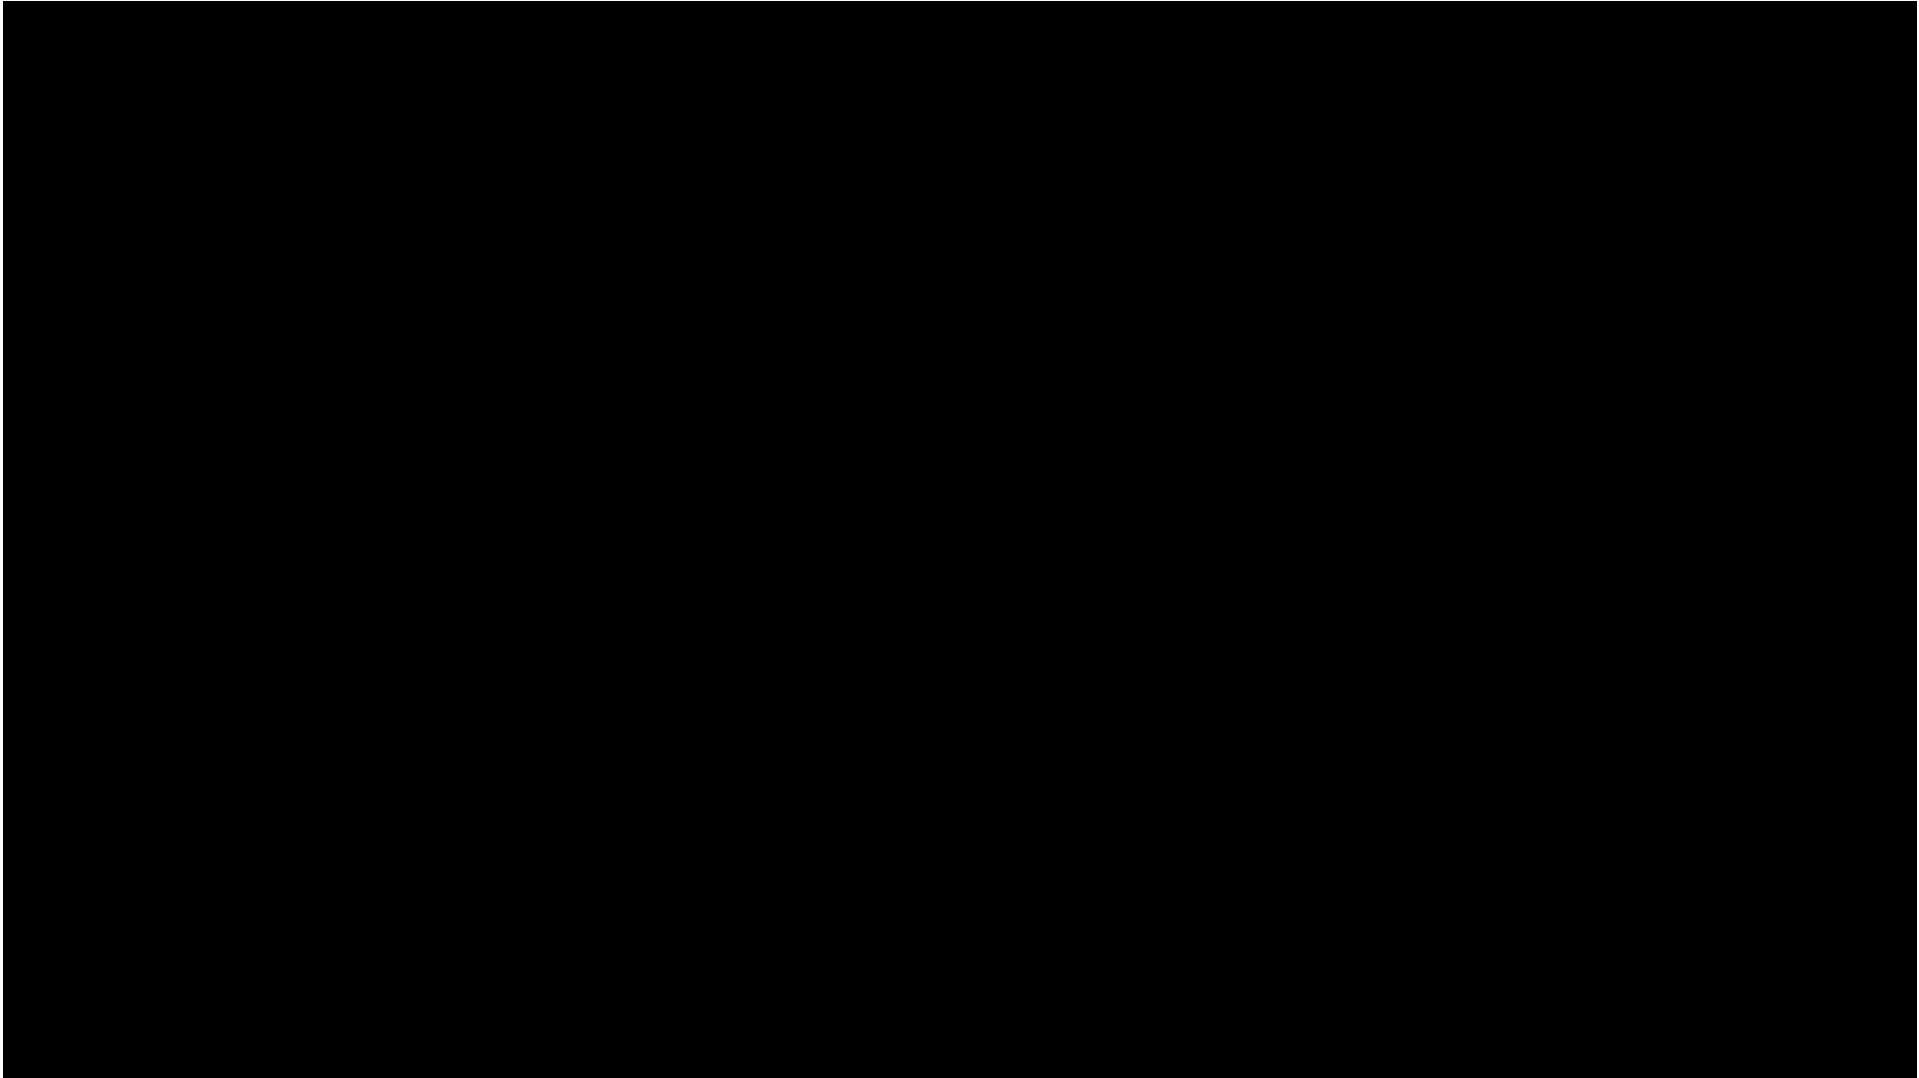

- Jake Rodenroth: **asTech®**
- Frank Terlep: **Auto Techcelerators, LLC.**
- Trent Tinsley: **Entegral**
- Fred Iantorno: **VeriFacts**
- Jimmy Spears: **Tractable**

# Let's Take a Look Ahead

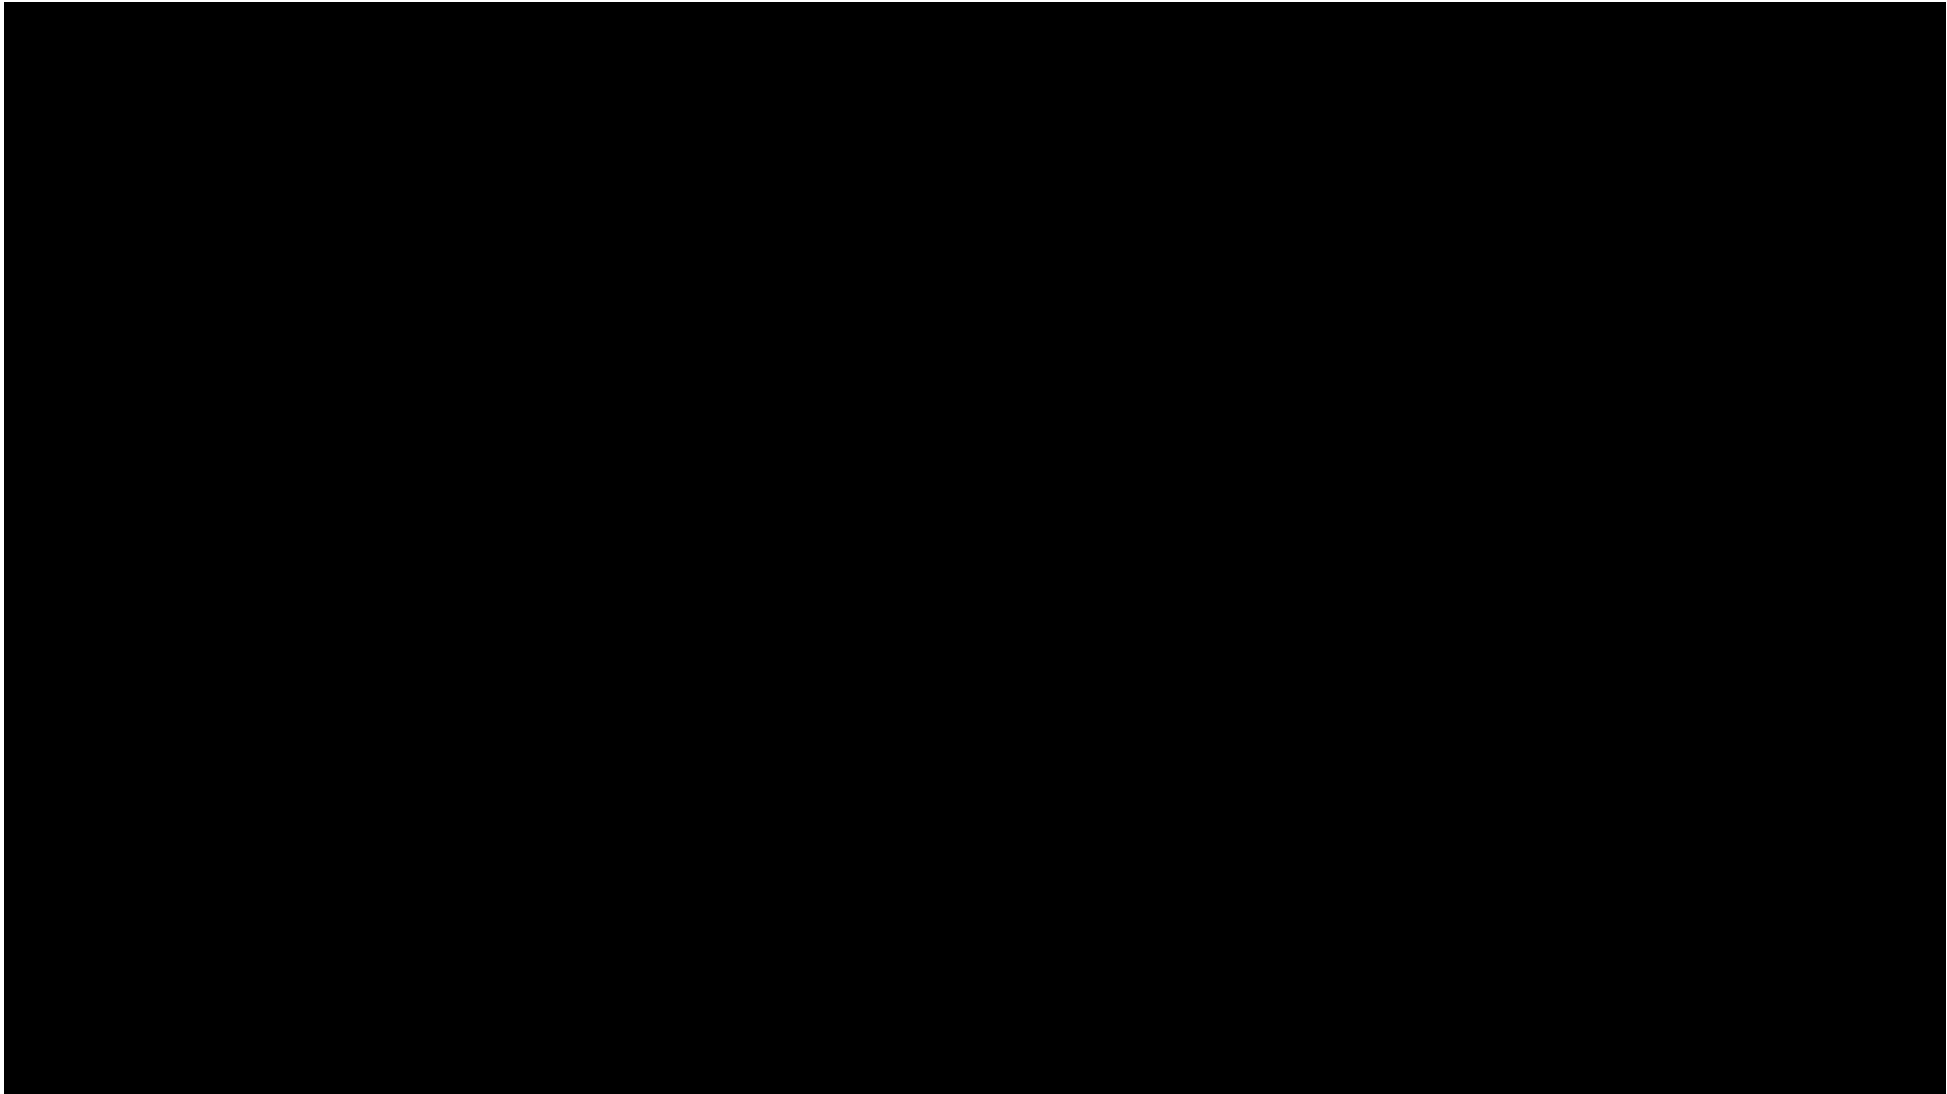

## At Future Topics and Discussions

# Industry Disruption

# Claims Disruption

# OE Manufacturer Disruption

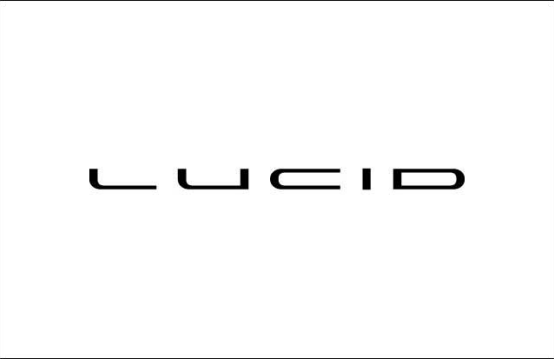

OEM Disruption

DS AUTOMOBILES

RIMAC  
AUTOMOBILI

# EV Disruption

Tech companies are winning the race to electrification.

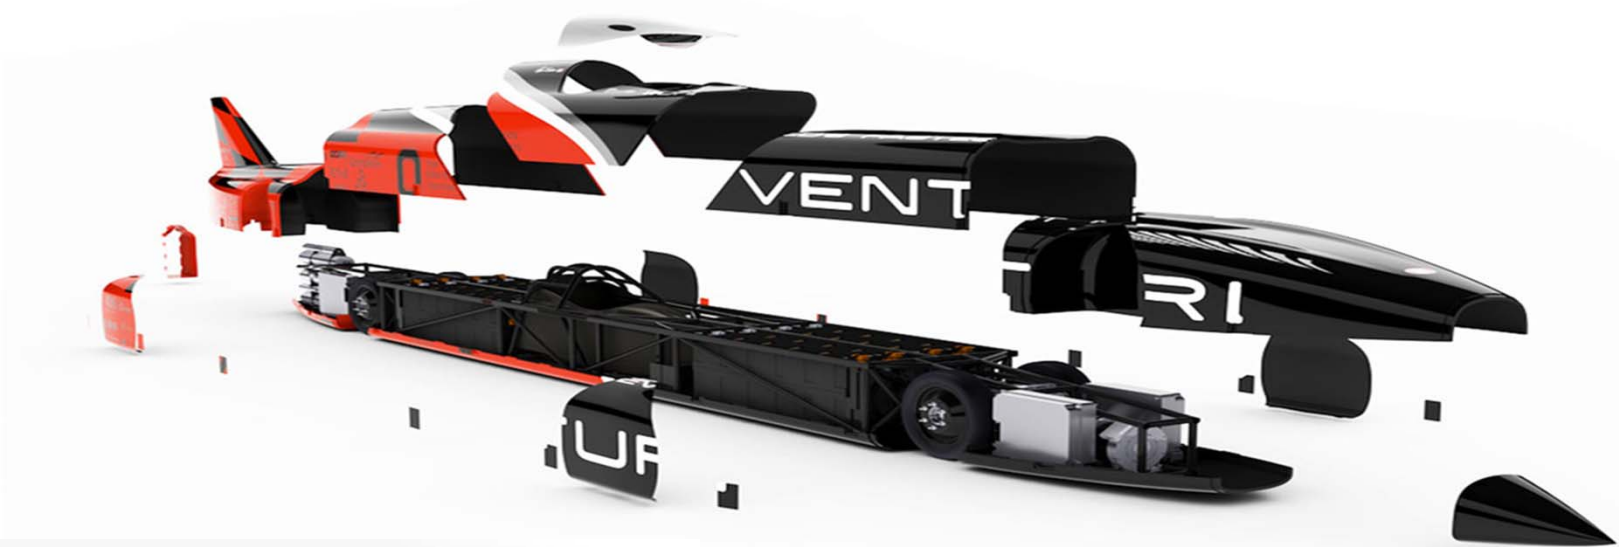

The VBB-3 is the most powerful electric car in the world.

VENTURI

Venturi with its VBB-3 set a land speed record for electric cars, reaching 341.4 mph on Utah's famous Bonneville salt flats.

**PACK BATTERIE**

LITHIUM IRON PHOSPHATE  
2,000 CELLS

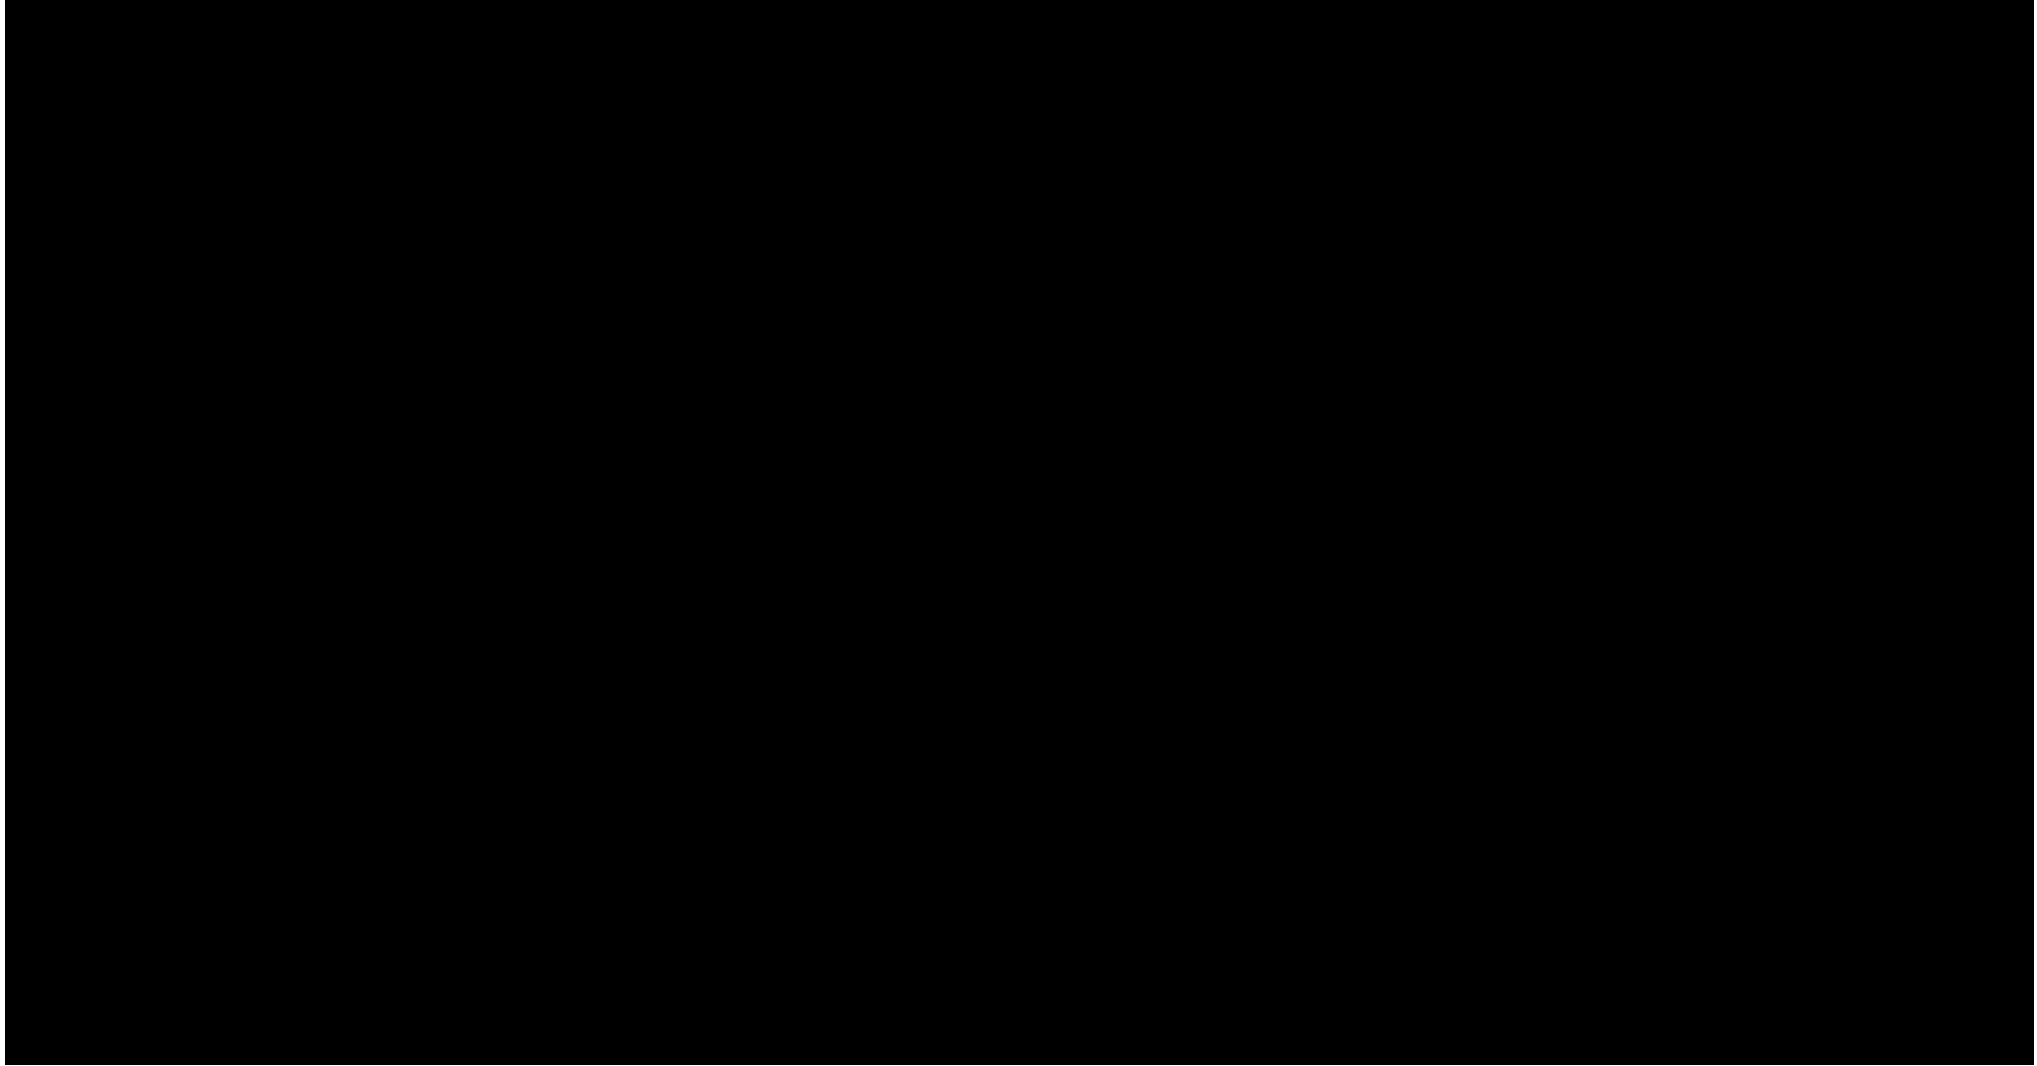

**ELECTRIC MOTOR**

UP TO 1,500 HP

# Connected Car Disruption

# iOT/Big Data Disruption

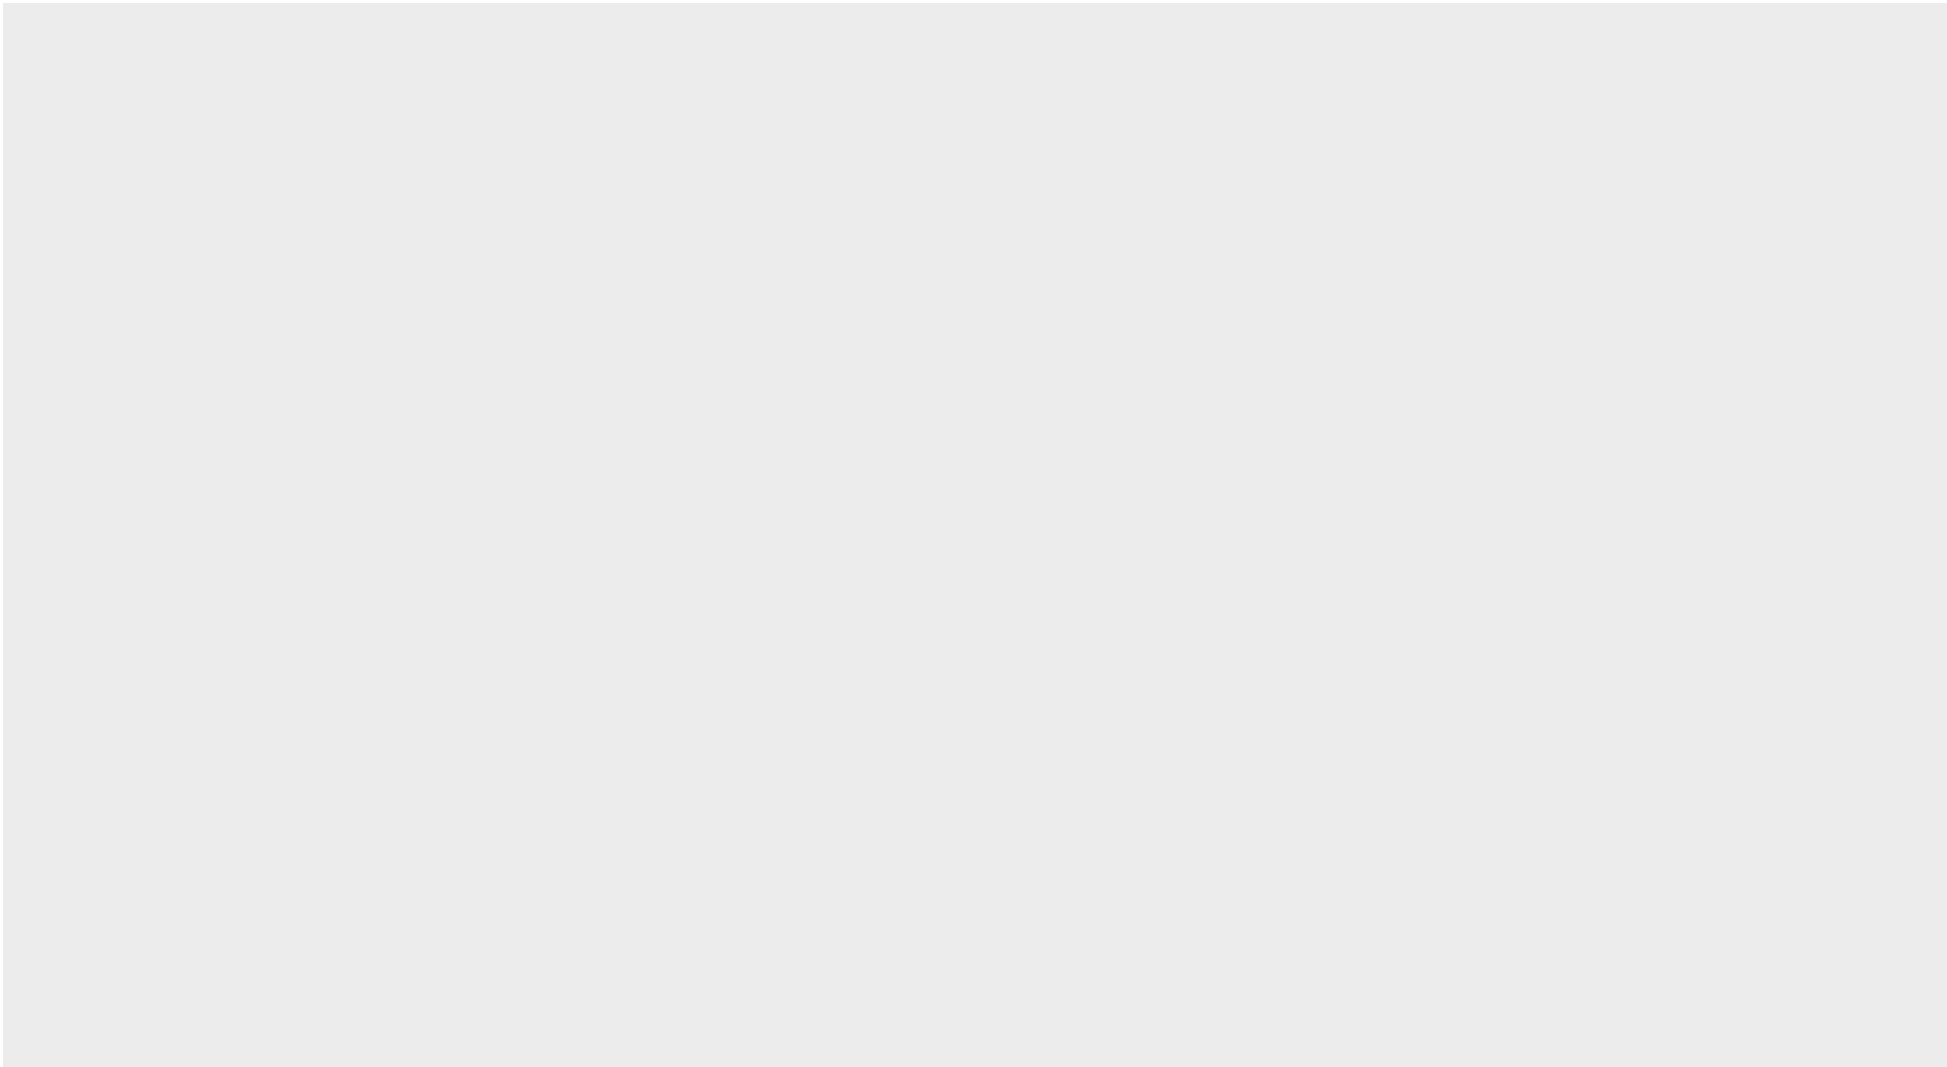

# *AI (Artificial Intelligence)* **Disruption**
